GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Leet's Insanity.

NEW YORK, Aug 20—The journals have the following details of Leet's insanity. While in the court room he said, Oh it is terrible terrible! (walking excitedly up and down the corridor) 'how so many men with decent faces can keep me away from the only man who can save me,' referring apparently to Tilder. 'There's an honest man somewhere, I know there is but I can't find him' said Leet weeping. He was put in a cell occupied by Tweed. He will neither eat nor drink anything that is offered him he declared unless it is in some very public place. This is necessary, he thinks, because only in a public place can his enemies be prevented from poisoning his food.

Butler's Speech to Workingmen.

NEW YORK, Aug. 20—Gen Butler addressed a meeting of several hundred workingmen this afternoon. He said there never has been a fair decision in this country or within the last generation between capital and enterprise, nor between enterprise and labor, for the reason that most of the money invested in enterprise was borrowed capital and must pay a large interest, and then when that interest had to be got again it must be got of labor. The whole legislation of this country the past sixteen years has been in favor of money and men of money. Let all property be taxed just once and no more then the taxes would grow less. He suggested as a remedy for over production caused by the extensive use of machinery, cutting down the hours of labor to one hour per day if necessary. Shun any man who speaks of the destruction of property, for destruction of property is destruction of so much labor. Don't send any man to congress who shall vote that a man with capital doing nothing for the good of his kind shall have a better opportunity in society than the man who works 8 or 10 hours a day. Elect men only who would work for the workingman.

Mysteriously Murdered.

COUNCIL BLUFFS, Iowa, Aug 20—Two men named John Tynans and Wm. Doran were mysteriously murdered last Saturday night on the railroad track, 25 miles south of here, probably for money. Three men named McGary have been arrested on suspicion.

Gold Discovery.

OMAHA, Aug 20.—Telegraphic information reached here from Fort Custer, Montana territory, dated August 18, brings news of a gold discovery in the snow range or the Shoshone mountains, the distance to the discovery being 250 miles from Fort Custer. William G. Hollis, formerly of Omaha, but lately of Deadwood, sends this news from Fort Custer at which post he has just arrived from the which he locates on the north fork of Stinking Water river, latitude 44° 30', longitude 110° 30'. The diggings are wonderfully rich. There have been only three men at work in the gulch, and they have taken out over 300 pounds of gold in less than four months, using a hollow log for a sluice box. It is known as the Whitmore discovery. The best route is via the Union Pacific thence to Camp Stambaugh or Brown. This news has been kept for some time, as these men were known to have gone thither quietly last spring and miners have been on the lookout ever since.

The Yellow Fever Scourge.

NEW ORLEANS, Aug. 20—Forty or fifty applications per day are made to the Howard association and officers report donations coming in liberally for use in caring for the indigent sick.

NEW ORLEANS, Aug 20—Four nurses sent by the Howard association of Grenada have the fever.

At Ocean Springs one death is reported.

At Vicksburg the health officer is unable to give official figures but estimates a hundred cases and increasing rapidly. Four later deaths to-day from yellow fever. Eighteen deaths to date. The city council abolished the quarantine this evening.

At Grenada the mortality is terrible. The scene cannot be described. Dr. Mandeville, an experienced yellow fever physician, says he never saw anything that would begin to compare with it; that it is fearful beyond description. The total number of deaths are over 70 with no abatement and no hopeful cases reported. Several deaths just reported. It seems that none are to be spared.

BOSTON, Aug 20.—The following dispatch was received here this morning:

MEMPHIS Tenn, Aug 20

To Mayor Pierce.—We are sadly afflicted and unable to supply the wants of our poor. Can Boston help us?

G. R. FLIPPEN, Mayor
W. CASEY YOUNG, M. C.

A reply was forwarded at once by the mayor authorizing the mayor of Memphis to draw on him at sight for $1 500. A meeting of citizens is called at the mayor's office at noon to-morrow, when active measures will be taken to relieve the distress.

NEW YORK, Aug 20—Two deaths from yellow fever occurred at quarantine yesterday, one of the victims being Wm Reilly a young blacksmith who arrived from New Orleans the past week. There are no more cases in quarantine.

Medical consultation as to his mental condition held to-day, resulted in a decision of the physicians to have the patient transferred that afternoon to Bloomingdale asylum as he is laboring under acute mania. The patient is still boisterous and irrepressible in conversation and in his demonstrations.

Horsethief Slain.

DEADWOOD, Aug 20—Constable Keenan of Deadwood, yesterday shot and killed a horse thief, name unknown six miles south of this place. Keenan met the thief and told him to throw up his hands when the thief put spurs to his horse and attempted to escape quickly followed by the constable, who fired three shots, hitting the thief twice and killing him.

Blaine Bruised.

AUGUSTA, Me, Aug 20—Senator Blaine and family, while driving in this city yesterday, were caught in a violent storm which frightened the horse, and it ran away wrecking the carriage. The Senator was the only one injured, receiving many painful bruises.

WASHINGTON CITY.

Missing Steamer.

WASHINGTON, Aug 20—Naval circles are becoming alarmed for the steamer *Wyoming* signaled Friday morning last off Cape Henlopen, short of coal and under sail. It is likely she was blown off the coast in the recent gales.

Movement of Troops on the Border.

WASHINGTON, Aug 20—The following is a statement of the recent movement of troops on the Mexican border. On the night of the 18th Col. Young, with a battalion of cavalry crossed the Rio Grande surrounded Newtown early in the morning and charged the town for the purpose of capturing the notorious stock thief, Arcola, but he had fled riding off bareback without clothing or arms. The alcalde of Newtown was interviewed and induced to accompany Col Young to this side.

Quarantining the Mail.

The postoffice department responds to the requests of New Orleans business men that the department interfere with the quarantine which detained letters from yellow fever cities, that it has no authority to act in the manner suggested.

CENTRAL AMERICA.

Central American Elections.

PANAMA Aug 12. Elections in the State of Santander have resulted in favor of General Trujillo. Elections in the State of Cundinamarca is announced to take place at an early date. Trouble is expected as it is ... the local president is determined to carry the day in opposition to the national government and the state force is larger than the national. It is reported that a number of Liberals on the Ecuador line of Colombia are organizing an expedition to cross into Ecuadorian territory and begin a revolution against the government.

THE INDIAN WAR!

Stage Stock Stolen.

It is reported that the stage stock at two stations on the Montana line north of Pleasant valley were run off by Indians last night.

HELENA, M. T. Aug 20. Indians last night stole the stock from Lime Kilns and Spring Hill stations a few miles north of Pleasant valley Idaho and eight head from near Camas creek 10 miles south of Pleasant valley. They are also said to have stolen a band of horses from a rancher near Spring Hill supposed to be Bannacks from Idaho. They will probably pass through the Yellowstone park.

Freighters Killed.

SALT LAKE Aug 20—A letter received at Oneida, Idaho the terminus of the Utah Northern Railroad says the Indians attacked Skelton McCaleb and party freighters numbering 11 men on the 10th near Salmon City Idaho and killed McCaleb. From Saturday morning until Monday noon the Indians, numbering about 30 kept up the firing. The freighters used flour as a breastwork and fought them off. Lieut Wilson, with 25 men, reached the freighters Tuesday evening, and will escort the train to Round valley. Only three yoke of cattle were killed. Fears are entertained for other parties on the road. Skelton's train was loaded at the terminus of the Utah Northern for the Yankee Fork mines on the head of Salmon river. McCaleb the person killed, was partner of Col Shoup a merchant at Salmon City.

Closing Out the Indian War.

MALHEUR AGENCY, Oregon, Aug 18 via BAKER CITY, Aug 20—Intelligence received to day indicates the presence of Natches band of hostiles, about 75 in all, at or near Stein mountain. Messengers furnished by Oits, the surrendered Piute chief, have been dispatched to find and bring this party in, and Piute prisoners now at the agency will be removed to Camp Harney in a few days, and probably there detained until again placed under the missionary influence of a modern Indian agent. It is fondly hoped that these Indians may either be removed to Indian territory or with all other agency Indians be turned over to army officers, who will certainly prefer fair dealing to fighting. Public feeling is so strong against these Indians on account of their depredations this season, that the men whose friends have been murdered and property destroyed, will not hesitate to kill a Piute at sight when off the reservation.

Death of Capt. Keeny.

Capt Keeny, of Keeny's Snake river ferry, an old coaster who spent the summer alone at a ranch on Willow creek guarding property against Indians, was found dead yesterday evening accidently shot. His pistol having evidently fallen from a holster to the ground, going off and the ball striking him in the groin. From the appearance of the ground for several rods, Capt Keeny had suffered terribly before relieved by death. The body had lain several days when found.

EUROPEAN NEWS

Omens of War.

VIENNA, Aug. 20—Troops ammunition and material are constantly leaving Vienna for the south. Great depression prevails, and the people do not believe in official assurances that the Porte, Servia and Montenegro do not support the insurgents. Opposition journals and leaders take advantage of popular excitement about occurrences in Bosnia to denounce the imperial cabinet and charge them with sending Magyars to slaughter with the object of securing their extermination. Hungarian troops have been the principal sufferers at Madez Tuzla and Stalatz.

Must be Stopped.

LONDON Aug 20—A Vienna dispatch says Count Zeichy has informed the porte that in the event of more bloodshed in those provinces Austria will definitely annex Bosnia and Herzegovina.

Opposing the Anti-Socialist Bill.

A Berlin dispatch says Representatives of Bavaria, Wurtenburg and Saxony in the German federal council oppose the provisions of the socialist bill. They regard it as tending to strengthen the imperial power.

Roman Riot.

ROME Aug 20—One policeman was killed and two carbineers wounded in a conflict with partisans of the enthusiast Lazaretti.

OREGON

Joseph Bernardi offers to contribute $500 toward a bridge across the Willamette at Salem and many others probably will follow the example.

W. C. Myers Percheron horse White Prince, died a few days ago at Ashland. He was poisoned at Salem last summer and never recovered from it.

The superintendent of the penitentiary is getting a shop fitted up for the manufacture of horse collars. The business will be pushed by an experienced workman as fast as available hands can be instructed. The Capital Leather and Manufacturing Company will furnish the leather.

While Mrs J E Payton and Miss Payton were driving out in a buggy at Drain's on Saturday last the horse became frightened by a passing hand car and backed over an embankment. The fall was fifteen feet. Mrs Payton struck upon her head and shoulders, and the buggy fell directly upon Miss Payton. The former is recovering but the latter sustained perhaps dangerous injuries.

Salem *Statesman*: John Lee who 20 years ago was a resident of this city and was a cook in the old Capital Hotel and the author of the first wash house in Salem now lives in Roseburg and is a brick and is becoming quite a litigant. Having been beaten in a lawsuit last week he declared that he would take it to the circuit court and if beaten there he would go to the supreme court and if beaten there he would go to Grover. He was bound to have justice.

Salem *Mercury*: Uncle Davy Newsome has received a letter from Riceville Ontario Canada, by which we learn that many substantial citizens of that country are on their way or making preparations to start in a short time to this valley. The writer of the letter was here a year ago and he in company with Mr Newsome traveled for five days in Marion Polk and Yamhill counties and saw the beautiful, rich and prosperous country in those counties. That gentleman has been preaching Oregon to his friends ever since his return home.

Very Important from Denis

[From the Rio Gazette.]

And now the electric fluid has been agitated once more and comes trembling across the continent with the sweet confession that Kearny has taken a bath in Boston. If Denis dear would send his leas to some educated laundry for general purification and trim the large words into a ... the size of his ... we should ... still farther improvement ... it ... been known that Kearny's oratory ... do not fit him.

Marble, Tilden and the Woodchuck

From the N. Y. Evening Express item

According to Mr Marble Tilden set his trap at a woodchuck's hole. When the woodchuck saw the trap whose hand's eye were left exposed he refused to come out that way. He made a new aperture. When Tilden found the woodchuck already free ... he begged the chuck to wait until he could set a snare at the new place. And the woodchuck wouldn't, whereupon Tilden dropped his head into his hand and has continued to droop and drool until this day.

NOTES VARIORUM

New Haven *Register*: Hayes does not seem to have much in his ... either with the administration or the Republican party.

Ben Butler is the owner of a yacht and a country editor has been looking over the biographies of all the ex presidents and he finds that not one of them has ever owned a yacht.

The Orangemen of Ireland have telegraphed to their brethren in Quebec to carry up their case before the privy council and the Irish lodges will find £10 000 for the legal expenses if necessary.

A prisoner has been pardoned out of the Illinois penitentiary because he has been found to be afflicted with scrofula which is offensive and deleterious in its effect on the prison hospital.

In Webster we find this definition of Potter. Potter *v. i.* To occupy one's self in a trifling manner or insufficient manner to labor idly or with little energy or effect to trifle to pudder.

Baltimore *Gazette*: In the absence of Southern Outrages Nullification and Wah it will be difficult for the old Republicans to get up a lively feeling over their contest for the offices next fall.

Louisville *Courier-Journal*: The word borrow used to imply the thing borrowed, or its equivalent, would be returned, but we must bear in mind that changes in the language are constantly going on.

The water of the Des Moines river became so hot during the recent heated term that fish died by the thousand. Large size pickerel were taken from the surface of the water and upon being plunged into springs speedily recovered and were as lively as ever.

Boston *Herald*: When Kearney is president and Butler secretary of state every pot will hold three pints, workingmen will employ capitalists, each man woman and child will have a bushel of money two and two will be five and water will run up hill all over the country.

London *World*: A gentleman went into a well known fashionable tailor's and addressing the master said "I believe you make for the Prince of Wales?" "Wales, Wales?" repeated the snip reflectively. Then calling to his clerk said "Jenkins, take the ledger down and look under W and see if we have got a customer called the Prince of Wales."

For the sake of variety the Republicans of Ohio and Indiana are to change speakers during the fall campaign. Gen Harrison the Hon J W Gordon the Hon John Coburn, and Gen Lew Wallace, of Indiana are to go over and stump Ohio and Gen Garfield Gen Keifer and Representative Foster of Ohio are to reciprocate the favor and go and labor in the Hoosier vineyard.

Manton Marble's letter has torn up the Democratic mind to a degree never before accomplished by so slight a purpose. If the object of the writing was to relieve Mr Tilden of all responsibility of the electoral commission—as it seems to have been—it scarcely accomplishes its purpose, at least not to the extent of having Mr Tilden accepted again without opposition, as the Democratic candidate for 1880.

Bob Ingersoll: I don't believe that Grant will be the nominee of the Republican party for 1880. Hayes has made some people think of Grant favorably as compared with himself. Grant is 'the man on horseback, who rode before the man on crutches.' Hayes through his weakness, has been Grant's best friend. I think that Blaine will be the strongest Republican candidate for 1880. He is a man who can talk to friends and enemies and send them away with a clear understanding of how he stands towards them."

THE TULLIS MURDER.

A PROMISE TO TROY DYE THAT HE SHALL NOT SUFFER CAPITALLY—PUBLIC INDIGNATION THEREAT—THE TULLIS ESTATE.

[Sacramento Special, 16th.]

The city has been thrown into a state of great excitement to-day by the knowledge of the fact that District Attorney Blanchard has promised Troy Dye, public administrator, held for the murder of Tullis that he should not suffer capital punishment. Finding what a breeze he has brought about his ears, he declares now that he is sorry that he made any such promise and will refuse to keep his agreement with the prisoner by not using Dye's testimony at the trial. The confession extorted from Dye was entirely unnecessary as Anderson had already made a full confession of the whole business to C. T. Jones who had been engaged to assist in the prosecution of the accused. The feeling here is intensely bitter against Blanchard for his course and the proposition to lynch Dye is freely discussed on all sides, so much so that an extra police force will be kept around the jail until the excitement subsides. The fourth man, who fired the fatal shot is still at large but his name is well known to the police and they are close upon his track. The name is freely mentioned on the streets. Some call him Tom Lawson while more insist that it is Lawton, and yet others claim that it is James Lawson. It is certain that the name is either Lawton or Lawson. John W Tullis a nephew of the deceased residing at Eufala Alabama is now on his way here to take charge of the estate of his deceased relative. Judge Clark has unexpectedly issued special letters of administration to a man named Starr who is interested in the estate adversely to the heirs and is said to be considerably in debt to the estate. Starr had made application for regular letters of administration. The arrival of one of the heirs in a few days however will probably prevent the estate from being gobbled up in the manner Dye had planned. Several parties are already hankering after Dye's office. Among the aspirants are A J Bump whom Dye appointed receiver of the Tullis estate. H S Beals Ed F Haswell and George Bronner, former administrator.

NEWS FROM CASSIAR

The Hudson's Bay Company's steamer *Otter* recently arrived at Victoria. Papers of that city report the following:

She brought $20 000 in gold from Cassiar 100 cases salmon from north river fisheries 100 barrels oil and about thirty passengers. Two nuggets one worth $100 and one worth $110 were brought down by miners taken from McDame creek, which is the richest portion of that gold producing section. One claim upon it the Phillips & Dawson has yielded $20 000 in gold this season. On the First North Fork adjacent to Messrs Phillips & Dawson's claim the Campbell Company and the Pocahontas Company are drifting and by this time it is supposed that the White Grouse Company have reached bed rock. The Empire Company are over 100 feet below the surface and 200 feet ... for the bed of the creek. When they have run 40 or 50 feet more they will strike the bed rock. The result of their operations is expectantly awaited by other companies located in the vicinity. On Snow creek the Larkin Brothers and several other claims are yielding well and Thibert creek is paying wages to upwards of 100 white men and 100 Chinamen. Walker creek as previously reported is an undoubted failure. Provisions on McDame are scarce. flour is sold at $.6 per 100 pounds. The steamers *Nellie* and *Gertrude* are plying on the Stickeen river, which is high for the third time this season. Mr Bennett a contractor formerly of this city has accepted a contract to raise the machinery and wreck of the steamer *Lotter* but the undertaking is considered to be a difficult one. On Dease creek James Welch's claim is paying handsomely. The week before Mr Christie ... $ 000 was taken out. On the 11th of July Alexander Blackwood a Canadian ... on Walker creek. He took cold on the way in and died after a brief illness.

WASHINGTON TERRITORY

Walla Walla has 1,130 children, and 33 more girls than boys.

The M. E. church at Tacoma recently finished, was dedicated last Sunday.

The postmaster of Olympia has been authorized to receive bids till the 24th inst, for carrying mails, by steamboat three times a week, between that place and New Tacoma.

The old district school house at Olympia has for several weeks past been undergoing changes and repairs under direction of the county commissioners, to adapt it for court purposes.

The Walla Walla *Statesman* urges the erection of a military post at Yakima City. It says Smohalla probably the most dangerous Indian in the country roams through the Yakima valley at will and no one can tell the moment he may give the signal for murder rapine and pillage.

Twenty five $1 000 bonds, fifty five $500 bonds and two hundred and fifty $100 bonds have been issued by the commissioners of Thurston county in aid of the Olympia Railroad Company. These bonds will bear 8 per cent interest are to run 20 years and are offered to the highest bidder.

The trial jury at Steilacoom, in the prosecution of John M Downey ex-treasurer of Pierce county after being out two days, came into court and announced their utter inability to agree upon a verdict whereupon they were discharged. It is generally believed that Downey was incompetent but not dishonest. Another trial will be had next January.

The sheriff of Walla Walla the *Statesman* says will refuse to deliver up to Billings contractor the territorial prisoners. Just what the hitch is here we are not informed, but that paper improves the occasion to add "Unless honesty fair dealings are hereafter adopted Walla Walla county will make another move to cut loose from the clam eaters for the purpose of being annexed to Oregon where we properly belong."

The Five Largest States.

[From the Troy N. Y. Times.]

The five largest states in 1870 showed an aggregate population of 11,841,000, scattered over an area of territory containing 251 000 square miles or over 161 900 000 acres or more than double the area of Great Britain and one fifth larger than France. Eighty years ago the territory wherein over 7,000,000 of these intelligent people now live was occupied by roving tribes of savages. In 1880 the five largest states will probably rank as follows: New York, Pennsylvania, Illinois, Ohio and Iowa. Perhaps Missouri may hold her position as the fifth over Iowa, but it is somewhat doubtful. It will be several decades before New York and Pennsylvania will surrender their political positions as first and second rank but it is only a question of time, for we believe in the saying of the large painting at the head of the great stairway which leads to the hall of the United States house of representatives at the national capital, "Westward the star of the empire takes its way."

Pensions without End.

[From the Chicago Times.]

To own a claim of any sort against the government even for a paltry pension is better than any ordinary life insurance. The latest illustration of this fact is supplied by the experience of the pension office under the law passed at the last session of congress granting pensions to widows and the widows of soldiers who served fourteen days in the war of 1812. In filing and adjusting claims under this law it has been found necessary to employ thirty or forty clerks. The number of ... exceed twenty three thousand—which considering that the war closed sixty three years ago is certainly amazing. If the soldiers of the late ... and their families possess equal tenacity of life congress will still be providing for many thousands of them in ...

AMERICAN LIFE IN PARIS

HOW TWO THOUSAND AMERICANS MAKE THE MOST OF THE FRENCH CAPITAL

[Paris Correspondence Baltimore American.]

What is called the American colony in Paris consists of about 2 000 families a large proportion of them from the South. A great many of them might be regarded almost as permanent residents. A goodly number of them are people of limited means who find that they can live so much cheaper here than in an American city that they have concluded to stay. One of these remarked to me to day "I can live better in Paris on $3 000 per annum than I could in New York on $6 000." He then proceeded to detail the difference. In New York he would be regarded as nobody unless he owned or rented a brown stone house at from $1 000 to $6 000 per annum. Here he could obtain a suit of elegant apartments in a fashionable neighborhood at from $800 to $1 000 per annum and made as good an appearance as anyone else in his sphere. In New York he would have to pay ten dollars per week for a coachman, while here he could engage a landau with a fine pair of horses, and liveried footman thrown in, to be always at the reasonable call of his family, for twelve dollars to fifteen dollars per week. Then he said he could clothe himself and family at one half the expense and much better than he could in New York that servants hire was not half the cost and the service better that there were always amusements here at moderate cost and a cab at call to take him and family home at all hours of the night for two francs while in New York such a luxury would cost five dollars. Then there was little or none of the troubles of housekeeping in Paris as a family can be fed cheaper than it can feed itself if satisfied with French living. But he remarked an American can never feel contented or comfortable in Paris until he goes to housekeeping and orders his own food and prescribes the mode of cooking it. A Frenchman loves the table d'hote, but it is an abomination to the American. As soon as they get under their own roofs they all fall back to the American mode of living, and luxuriate in griddle cakes muffins hot rolls and buckwheat cakes, all of which a Parisian would regard as poison. They exorcise the horrible French patties, roast and stuff their chickens instead of broiling or frying them, serve up their salad without oil, and let those who love oil love it they eat their peas and beans and potatoes with their meat, and mix things generally just as they did at home. They know exactly what they are eating and no longer shut their eyes and swallow whatever is given without knowing very often whether it is fish, flesh or fowl. When an American gets under his own roof he is always happy in Paris, and the ladies especially become attached to it. In short he maintained that an income of $3 000 per annum would enable a man here to keep his family in as good position in polite society as could be done at a cost of $10 000 in New York that there were certain expenses necessary to position that were not required here and that a fine showing can be made on a limited purse.

Amount of Money.

[From the New York Times.]

Some years ago Controller Knox incorporated in an annual report a table showing the ratio of circulation to population and wealth in this country, in 1862 and 1870, and in 1868 in Great Britain and France. The wealth of France and Great Britain was estimated alike $40 000 000 000 each, the specie at $700 000,000 and $100 000 000 respectively the note circulation at $252 000,000 and $196 000 000, the population as about equal the ratio of circulation to wealth as 2.38 and 1.49 per cent the circulation per capita at $25 05 and $19 48. For the United States, the specie and bank notes were figured at $438 671 218 in 1862 and the total of circulating medium at $700,000,000 in 1870 the ratio of circulation to wealth at 2.71 in 1862, and 2.62 in 1870 the circulation per capita at $13 95 in 1862 and $20 48 in 1870. To recapitulate:

	Ratio of circulation to wealth	Volume of circulation per capita
Great Britain, 1868	1 49	$19 48
France 1868	2 38	25 05
United States 1862	71	13 95
United states 1870	2 62	20 48

From figures given in more recent reports we find that the circulation in the United States was $8 20 per head in 1840, $7 60 in 1850, and $9 30 in 1860. The legal tenders now existing are more than 60 per cent in excess of the largest amount of bank circulation ($214 778 000 in 1857) during the thirty years preceding 1862 and the largest aggregate of notes and specie during that time was $497,844,000, in 1859 the quantity of paper and silver now in circulation is not less than $720 000 000 which is $21 000,000 in excess of the total in 1867. Notwithstanding all the shrieks about "contraction," it appears that the circulation per head is nearly three times the average during 1850 to 1862, and that there is more "money" now than there was when the imaginary subsequent prosperity, now lost to sight but dear to memory, was at its height.

What Southern Supremacy will Mean

From the Okolona (Miss.) Southern States.]

In all human likelihood a Democrat will walk up the White House steps in 1881 and take his seat in the presidential chair. He will send his first message to a Democratic senate and a Democratic house and then a quiet but irresistible revolution will set in—a revolution that will sweep from the constitution and statute books the last stain and blemish of New England ideas. It is safe to say that the following programme will be followed out to the utmost letter and syllable.

1 The republic will be divested of the powers that it has usurped from the states since 1861. The reserved rights of the several commonwealths of the federal union will be recognized in their widest scope and range. In a word the Calhoun theory will be put in practice while Hamiltonism will be torn up root and branch and destroyed forever.

2 The unconstitutional amendments will be repealed and the constitution will thus be restored to its primitive vigor the ballot box purified and politics redeemed in an unlimited measure from the demoralizing influence of ignorant, vicious and mercenary suffrage.

3 The national banks will be leveled with the dust the United States bonds will be taxed and the greenback will be made a legal tender for every dollar of public indebtedness.

A thousand and one other reforms necessitated by Radical treason and misrule will be made but those we have particularly specified are the most urgent and vital and will prove most speedily beneficial to our common country.

Boston's total valuation is $ ... 000 000 a shrinkage of $55 000 000 from last year's valuation. The rate of taxation will be a few cents less than $13 on $1 000 against $13 10 on $1 000 last year.

WEDNESDAY MORNING AUG 21 1878

A MAIN SOURCE OF THE EVIL

Every day there is accumulating proof of the increase of a class who are resolved to shun every useful employment and to live by preying upon society Vagabondism is the first result and the natural sequence is flagrant crime Arson robbery and murder are resorted to very frequently and with utmost indifference, whenever such crimes appear to offer a method or opportunity for even petty gain The affair which has occurred in our city is a revelation of the growth of this most vicious and criminal class, and of the dangers which are threatened by it Society does not sufficiently protect itself against these miscreants and what we especially want to say just here and now is that the aversion to honest labor, which is the parent of most of the hideous and phenomenal crimes of the present time is wrongfully inculcated and encouraged by a portion of the public press which does not realize its responsibilities and by political orators and demagogues who are teaching in effect, the infamous doctrine that society and government are organized against the poor man who has as good a right as anybody to live without labor, and who is justified in considering every man his oppressor whose industry or knowledge has brought him any accumulations. The doctrine is taught that it is the first duty of government to take care of its people and from this the deduction is an easy one that if government fails to do its duty every man has a right to become a robber and help himself. Idleness, and the want which is a natural result of idleness, are exalted as virtues, a man is to be pitied for his poverty and "misfortunes" even though they be the legitimate fruit of his own indolence and worthlessness, and he is taught to consider every one who has acquired property his natural enemy, whom it is his right to despoil It will be said, of course, that this is an extravagant statement of the doctrines urged by political demagogues and an irresponsible press. But it is not. It is a statement of the simple and legitimate tendency and results of their teaching When property is denounced as a crime, and society and government are arraigned for abetting it, when lazy loafers and tramps are spoken of with compassion because they are "poor," and told that their condition is the consequence, not of their own idleness and vices, but of a conspiracy of the property classes against them; when every man who has accumulated something by industry and held it by self denial is called a Shylock, a bloated bondholder, or something worse, when the seditious, indolent and vicious classes are daily told that the reason they have nothing is because the laws grind them, and because government, instead of taking care of them is in league with scoundrel wealth against their rights, what should naturally be expected as the consequence of pouring such abominable stuff in a continual stream upon the community? If there be any more effective method of poisoning public sentiment and of raising and recruiting an army of idlers, tramps, vagabonds and criminals, it would be difficult to conceive it, Crimes similar to that which we now record here are rolling like a deluge all over the country. Men who have undertaken to live by preying on society, and who go to places where they are unknown in order to make their operations more easy and safe, are found in vast numbers in every part of the country. Wherever they go they hear constant proclamation of the doctrine that "the poor man" ought to be taken care of, that government is infamously remiss in not making provision for him, and virtually that he has a right to live and apply his own remedies.. The class who are schooled in this system are past all labor or the thought of it. Nothing would induce them to work in any honest occupation for an hour. Their numbers are increasing alarmingly, and will increase so long as they are tolerated and encouraged by a perverted public sentiment. The evil is growing to proportions which demand the considerate attention of the people of every state.

FOREIGN TRADE OF THE UNITED STATES.

It appears from a statement which the national bureau of statistics has recently published that the balance in favor of the United States in the trade with foreign countries for the fiscal year ended June 30, 1878, reached the unprecedented sum of $261,744,570 This great balance of course was not settled with cash, but through the machinery of exchange and the return of various kinds of bonds from abroad So rapidly have United States securities been returning home that Secretary Sherman estimates the total amount of these bonds now held abroad to be only about $200,000,000. This reduces the foreign demand for gold for interest to ten or twelve million dollars a year. But the actual export of specie is even much less It amounted last year to only $3 911,912, while the coinage at our mints was above $70,000,000

For the fiscal year which ended on the 30th June last the value of our domestic exports was $707,738,783, and of foreign exports $20,878 612, making a total of $728,617,425 The value of imports for the same period was $466,872 846 As compared with the period of inflation which followed the war the exports have more than doubled, while the imports are less by more than two hundred millions than they were in 1873 Within the last six years a change has been effected in the character of our foreign trade favorable to the national solvency and to the accumulation of wealth, amounting to four hundred and fifty million dollars per annum This appears from the fact that in 1872 the balance of trade against this country reached nearly two hundred million dollars while during the last fiscal year as above stated, the excess of exports over imports was above two hundred and sixty one millions

This wonderful change is explained in part by the record of the enormous increase of breadstuffs, cotton, petroleum, tobacco and provisions exported from this country and by the manifestly nearer approach of the United States to industrial independence in nearly all lines of manufactured goods We are now sending abroad of vegetable and animal food quantities nearly sufficient to subsist our entire population and to these leading articles of food the great increase of our exports within the last few years is mainly due The compiler of the report for the bureau of statistics draws from these facts the conclusion that the present large export movement will probably be sustained on account of the "annual increase of crops the vast undeveloped resources in the country and the stimulus which the exportation of all sorts of food products especially wheat corn, animals and other provisions has received from reduced cost of transportation from the interior to the seaboard" and he adds, that this latter circumstance has greatly increased the ability of America to compete in foreign markets

Discovery was made some days ago at Harrisburg of an illegal over issue of Pennsylvania state bonds Singularly enough it is found that the fraud was perpetrated as long ago as 1864 but has never been discovered till now The illegal bonds were issued by John M Bickel, state treasurer, and now come to the surface as a Democratic legacy The New York *Times* says the fact will hardly be regarded as a comforting one by the political leaders who have recently made so much ado about what they were pleased to call corruption in the Republican administration of the finances

The *Standard* says in its oracular way We have no objections to bank notes But we hold that the general government should not pay interest on bonds for which it has issued notes The bonds should be cancelled, and congress should so amend the banking law The bonds can be cancelled only by paying them in full in the money promised that is in coin Whether the national banking system is a good thing for the country is a subject for discussion but if we were advocates of paper money we should support and defend that system, because it gives the country above three hundred millions of paper currency which otherwise it would not have

The Walla Walla *Union* has "little faith that a law regulating freights and fares can be enacted which will practically open the portage at The Dalles to competition But it "suggests that the Oregon legislature offer the right of way and freedom from taxation for a number of years, provided that a railroad be constructed around The Dalles with in a given time, over which freights and passengers should be carried at uniform rates without discrimination,"

It would appear that a greater reward than $250 ought to be offered for the apprehension of the robbers and murderers who did their work and made their escape yesterday So ciety has no higher duty than that of following up and punishing with utmost severity so atrocious a crime. Let a reward be offered large enough to insure the capture of the villains, if a reward can do it

CONDITION OF VICTOR BELLINGER—From one of the attending physicians we learn that the condition of Victor Bellinger, who was so dangerously injured last Saturday evening by the premature discharge of a cartridge, has not materially improved. There have been no unfavorable symptoms thus far but he has not improved much It is hoped that with careful medical attention and nursing the boy may recover Mr C B Bellinger arrived home last evening from Southern Oregon in obedience to telegraphic summons.

UNDER BONDS—At 2 o'clock yesterday afternoon the case of state of Oregon vs N. J. Hammel, charged with the killing of Henry McLaughlin, came up before Justice Bybee for preliminary hearing. A few witnesses were examined and the court deeming the testimony sufficient, held the defendant to await the action of the grand jury in the sum of $1,500

IN GOVERNMENT SERVICE.—The steamer *Katata* is now employed in government service on the bar, making surveys, etc. Her officers are as follows: Captain, B F. Stevens; engineer, E. C Rufner, 1st officer, Frank Hobson steward. John Byerly. The little steamer is now in good order and will do good service.

GONE TO SEA.—The U. S. revenue cutter *Thomas Corwin* Capt. Brumm, left Astoria for the Sound Saturday, taking the place of the lighthouse tender *Shubrick*, in supplying lights etc north of this port. She towed the *Shubrick* to sea, and the latter will proceed to San Francisco with one wheel, for repairs

ACQUITTED—Yesterday forenoon Mr. E Pring was tried before Justice Bybee on a charge of assault and battery on the person of Mr Wertheimer, the grocer A jury trial was demanded by the defendant, and a verdict of acquittal was returned.

CITY.

A SLIGHT MISTAKE.—Two men who are largely interested in the stock business in Eastern Oregon came down yesterday on the steamer *Wide West* Late in the evening the men went strolling about the city They were arrested by officer Daniels who took them for loose and irresponsible characters He marched them off to jail but on arriving there the men explained who they were to the satisfaction of all present and showed their credentials It was a good joke at the expense of the Eastern Oregon fellows in which officer Daniels came in for a share A hearty laugh was indulged in all round and the two men were released

TURNERS CENTENNIAL ANNIVERSARY —The centennial celebration of the birthday of F L Jahn the founder of the Turn Verein Association will take place at Turn Verein Halle in this city this evening The order of exercises as announced in another column, will be carried out and we doubt not a most pleasant and interesting time will be assured to all who attend The society here has a peculiar tact in arranging for the enjoyment of its guests, and we doubt not that this will be in keeping with former entertainments.

GONE TO SALEM —Dr Manasse the skillful optician, who has been sojourning in this city for some weeks has recently recovered from a severe illness He has, we are gratified to state, regained his wonted health and spirits and is again able to attend to professional duties Monday morning he went to Salem at which place he will remain for a short time All who are troubled with defective eyes should not fail to give Dr Manasse a call He comes to us with the very best endorsement from the professional world

CONDITION OF VICTOR BELLINGER —From one of the attending physicians we learn that the condition of Victor Bellinger, who was so dangerously injured last Saturday evening by the premature discharge of a cartridge, has not materially improved There have been no unfavorable symptoms thus far but he has not improved much It is hoped that with careful medical attention and nursing the boy may recover Mr C B Bellinger arrived home last evening from Southern Oregon in obedience to telegraphic summons

AGROUND —The Astoria boat which arrived here last evening brings the unwelcome intelligence that the *Great Republic* was aground at St. Helen's bar when the steamer passed The *Great Republic* is drawing between 17 and 18 feet of water. At 9 o'clock last night the water on the bar was 19 feet, and by availing of high tide it was hoped that the steamer might be floated off About 75 passengers came up to the city last evening on the Astoria packet.

UNDER BONDS —At 2 o'clock yesterday afternoon the case of state of Oregon vs N J Hammel, charged with the killing of Henry McLaughlin, came up before Justice Bybee for preliminary hearing A few witnesses were examined, and the court deeming the testimony sufficient, held the defendant to await the action of the grand jury in the sum of $1,500.

LECTURE.—Dr. Mary A. Thomson will deliver a lecture at Good Templar Hall this (Wednesday) evening Her subject will be "The influence of woman in the councils of the nation." Mrs. Dr. Thomson will give her experience before the senate committee at Washington last winter Lecture to commence at eight o'clock, admission, 50 cents

ARMS DISTRIBUTED.—A few days ago mention was made in these columns of the fact that Maj. E. Cahill had received a quantity of guns and ammunition from Mr Kanzie of Umatilla. Five cases of ammunition have been received and yesterday the major was distributing them among the several military companies of the city.

IN GOVERNMENT SERVICE. — The steamer *Katata* is now employed in government service on the bar, making surveys, etc. Her officers are as follows Captain, B F Stevens, engineer, E. C. Rufner, 1st officer, Frank Hobson; steward, John Byerly. The little steamer is now in good order and will do good service.

GONE TO SEA.—The U S revenue cutter *Thomas Corwin*, Capt. Brumm, left Astoria for the Sound Saturday, taking the place of the lighthouse tender *Shubrick*, in supplying lights, etc., north of this port. She towed the *Shubrick* to sea, and the latter will proceed to San Francisco with one wheel, for repairs.

ACQUITTED —Yesterday forenoon Mr E Pring was tried before Justice Bybee on a charge of assault and battery on the person of Mr Wertheimer, the grocer A jury trial was demanded by the defendant, and a verdict of acquittal was returned.

TERRIBLE TRAGEDY

Deadly Assault, Robbery and Murder

O SHEA THE PAWNBROKER FEARFULLY WOUNDED BY THREE VILLAINS WHILE IN HIS STORE AND ESCAPE—IN FIRING AT THEIR PURSUER THEY KILL LOUIS JOSEPH A YOUNG LAD—EXCITEMENT AND SEARCH FOR THE ROBBERS REWARD OFFERED FOR THEIR CAPTURE—DETAILS OF THE TERRIBLE CRIME

One of the boldest and most deliberately planned and executed crimes ever recorded in the history of this state was committed early yesterday morning in this city Substantially the circumstances of this double crime—robbery and murder—are as follows

About 9 o clock yesterday forenoon three men—so far as can be ascertained total strangers in the city—entered the pawnbroker office of Mr O Shea on the south side of Washington street between First and Second Mr O Shea was in the shop at the time he having opened the place but a short time before Ostensibly the men came in to purchase some blankets They made such plausible representations that the proprietor did not suspect them—at least did not have the remotest idea of their real purpose After dickering for a short time the men bought the blankets for which they offered money As some change was due them O Shea stooped down and unlocked the safe to get at his money While thus engaged one of the men struck him a heavy blow on the head which knocked him insensible The robbers then began to hastily burglarize the premises They took most of the jewelry which was on exhibition in the window and also some money from the safe but how much cannot be determined with certainty at present writing All the articles and money which they obtained were deposited in a valise which was found in the office

HOW THEY WERE DISCOVERED

Shortly before the burglars entered the office a young woman went in, and after remaining a short time was observed to come out The three men were seen to enter the office a few minutes later, but nothing was thought of the circumstance Two young fellows Lee Backenstos and Ed Miller, were standing on the opposite side of the street and noticed the men go in A portion of the glass in the window and door of the pawn broker office is frosted so as to prevent one from looking in and observing what is going on By reason of the glass being frosted the interior of the office is quite dark However by stooping down a person can see through very distinctly The boys while looking over saw one of the three men standing near the window He observed the young men and appeared to be watching their movements The man first attracted their attention by his actions He looked out and smiled at them then he nodded his head and shook his finger at them winking and smiling all the time The young men did not hardly know what to make out from his actions, but they suspected nothing for a little time While observing the actions of the man at the window, they heard a blow and immediately after a dull thud as if something had fallen to the floor Thinking the proceedings a little singular Backenstos and Miller started to cross the street going toward the office When the man at the window saw them coming he turned the key in the door and locked it. On reaching the side walk the boys heard a deep groan as if some person was in great distress and at the same moment they noticed one of the men gathering up all the jewelry which was in the window Suddenly the conviction flashed across the minds of both that a crime was being committed They looked down street and saw

CONSTABLE SPRAGUE

And W W Sweeney standing at the corner of Washington and First streets They ran over to the men and told them that some burglars were in O Shea s place robbing him Both men crossed over and went to the door of the office, but found it locked They looked in and could plainly see the men moving about and could hear them talking. Sweeney told Sprague to guard or cause to be guarded, the front of the office and he would go around to the rear of the building and prevent the burglars from effecting an escape in that direction There is a narrow alley opening on Second street through which the rear of the office can be reached Sweeney ran around, and entering the alley clambered up on the roof of the building To do this occupied some few moments. Just as Sweeney was climbing along the roofs he heard the smashing of glass He looked down and saw the men effecting their escape through one of the rear windows In their haste to leave the premises the burglars did not hoist the sash but broke through the glass, making as they did so a loud noise On reaching the back yard, the men scaled the board fence separating it from the rear of the row of brick stores fronting on First street After getting over the fence the three men walked coolly through the store of Messrs Lewis & Strauss and out on the sidewalk Sweeney saw the men plainly, but everything transpired so quickly that he obtained only a glance and would probably not be able to identify either of the three should he see them again Unfortunately he had no arms of any kind, and was helpless He could easily have killed them if he had only been armed No resistance could be offered the men as they passed through the store by the clerks, as each was armed with a large pistol and would not have hesitated an instant to use it if opposed.

Constable Sprague who, during this time was guarding the front of the office, on ascertaining how the burglars had made their escape gave pursuit On reaching the sidewalk on First street the burglars started up walking very briskly, each carrying a pistol and one the valise containing all the booty When Alder street was reached they turned up that thoroughfare, increasing their pace as they advanced Sprague soon sighted them and gave chase

A FATAL SHOT

Before reaching Third street the men were running hotly pursued by Sprague who was constantly gaining on them Coming to Third street the burglars started up that street going on the east side Just as they came opposite the blacksmith and wagon shop near the corner of Third and Alder one of the burglars who was behind (the one who was carrying the satchel) called out to his two companions who were several yards in advance and said "D—it let us make a stand right here, I've run just as far as I am going to" Several men who were working in the blacksmith shop at the time heard the exclamation, and came to the door to see what the trouble was However the other two did not make a stand but continued to run up street The one with the satchel followed on, but his booty was quite heavy and he could not keep up By this time Sprague was close on to the last man, who held in his hand a large navy revolver which he seemed inclined to use if pursued The officer it seems was unarmed and could do nothing against three desperate men armed to the teeth Finding that Sprague was getting very close the man in the rear turned and fired at the officer just as he was stooping to pick up a stone Just about the middle of the block, a lad named

LOUIS JOSEPH

Met the three men The boy was crossing down toward Alder He noticed three men running and saw Constable Sprague after them Very naturally the lad turned around to see what the trouble was and just as he did, the pistol was discharged with fatal effect The ball which the burglar intended for the officer pierced the heart of the poor boy Young Joseph was about 100 feet from where the shot was fired but the weapon was a large sized navy revolver and sent the ball with almost as much force as a rifle On receiving the shot the lad clasped his hand over his heart and exclaiming "I'm shot I'm shot" fell to the sidewalk and instantly expired

A second shot was fired by the murderer at Sprague but he sprang behind a tree and escaped injury The three men ran out to the corner of Third and Morrison streets, where the grocery of Messrs Weeks & Mr ... is situated Mr Weeks had just driven his grocery wagon up to the ... a short time before and was busy at the ... [illegible] ... Mr Weeks ... [illegible] ... into a furious gallop up Morrison street The whole transaction did not occupy but a minute and before Mr Weeks could scarcely realize the situation the three men who took forcible and unceremonious possession of his

wagon were half a block away moving like the wind

THE DESPERADOES

Drove out Morrison street at a furious gate as far as Fifteenth when they left the team and wagon and crossing through Mr King s orchard passed through the City Park and made good their escape Hundreds of people saw the murderers making their escape but were powerless to prevent them from getting away So rapidly was the whole preconcerted plan carried into execution that scarcely ten minutes elapsed between the commission of the burglary and when they were secreted in the dense timber west of the city The news of the double crime spread

LIKE WILDFIRE

And in a short time after the fatal shot was discharged on Third street hundreds of excited people thronged the streets As quickly as possible Chief Besser sent eight members of the police force in pursuit of the murderous trio A large number of men volunteered to join in the search and within an hour after the crime was committed at least ... men well armed were scouring the woods west of the city Every nook and corner was searched but no traces could be discovered During the entire afternoon the search was continued without success It is thought that the men have secreted themselves in some recess and did not stir until favored by the friendly cover of darkness Last night Chief Besser had guards stationed along the various roads leading into the country and also those leading to the city so that it will be very difficult for the desperadoes to make their escape

BOOTY RECOVERED

The valise containing most if not all the booty was found a short distance above the residence of Mr Green near the city park It was lying just over the fence where it had been dropped by the men in their flight On examination the valise was found to contain considerable jewelry and a number of valuable watches The amount of

MONEY TAKEN

By the burglars is at present not known Mr O Shea s condition is such that he cannot be questioned as to his loss Even the members of his family cannot form an idea as to the sum taken A few days ago Mr O Shea was known to have a large sum—thought to be about $8 000—in his safe but how much he had on deposit yesterday must remain a matter of conjecture It is not improbable that the robbers got away with several thousand dollars in coin From appearances it is almost certain that one of the murderous villains was

ACCIDENTALLY WOUNDED

While making his escape As the men were getting out of the wagon which had been driven at a wild gate up to the edge of the gulch the pistol handled by one was accidentally discharged The report of the pistol was plainly heard by several who saw them running up Morrison street One of the men was observed to clasp his hands on his leg and a moment later he went limping down the embankment

REWARD OFFERED

Within a few hours after the commission of the double crime a reward of $250 was offered by the committe on health and police for the arrest and conviction of the guilty parties Posters announcing the reward were displayed about the city in conspicuous places

The deliberation with which the crime was planned and the audacity and boldness of its execution is a matter over which this community may well feel astounded That three murderous villains could enter a pawn broker shop in broad daylight assault and well nigh kill the proprietor take a lot of valuable jewelry make their escape in the very face of an officer, murder an innocent boy on one of the public streets and finally get away without a scratch is certainly a most remarkable display of recklessness and foolhardy daring Every effort will be made to discover the whereabouts of the perpetrators of this dual crime of robbery and murder and bring them to swift and condign punishment

THE INQUEST

Soon after the terrible tragedy, the body of Louis Joseph was conveyed to the morgue where an inquest was held in the afternoon by Coroner Cook The following persons were summoned to act as jurors Wm A Daly (foreman) Louis Lemline S Fuchtrauger J Kaufman, M Hexter and A Smith Several witnesses were examined and the inquest adjourned until this morning at 9 o clock Dr Saylor made an examination of the body of the unfortunate lad, and reported to the jury The ball passed almost directly through the heart but did not come out on the other side Louis is the son of Mr Joseph the well known glazier on First street He was a bright intelligent lad about 14 years old and his sudden and awful death falls with a terrible and paralyzing weight on the hearts of his parents and friends Last evening the remains were conveyed from the morgue to the residence of the stricken parents

CONDITION OF MR O'SHEA

Three heavy blows had been dealt Mr O Shea by the burglars with an iron bar One was across the top of the head which is the most dangerous Two lighter blows were given in the back portion of the head each of which is about an inch and a half long The blow across the top of the head is about four inches long In each wound the scalp has been laid bare clear to the bone Doctors Saylor and Jones were immediately summoned and dressed the wounds Mr O Shea has lost considerable blood from which he is very weak The blows rendered him unconscious from which he had not fully recovered up to the latest accounts His wound are considered very critical but not necessarily fatal At first it was feared that the skull had been fractured but a careful examination disclosed the fact that such was not the case Mr O Shea now lies at his residence, on the east side of Third street between Washington and Alder, where he is being tenderly cared for

IN CLAMBERING OVER

The fence at the rear of O Shea s office one of the men lost his hat and in his haste to escape did not recover it His condition attracted some attention, but most of those who saw him did not think that he had been engaged in the commission of a crime so grave

In searching for the perpetrators after they had made their escape to the woods the coat of one of the men was found where it had evidently been cast off in their flight On searching in one of the pockets a number of fish hooks were found They were wrapped up in a piece of paper on which was stamped the words Wm Beck & Son The coat was sent to the store of Mr Beck, in the hope that it might be identified but nothing definite could be ascertained It is quite probable that the fish hooks were recently sold to the man by Mr Beck but that must remain a matter of conjecture

Anything like a minute description of the personal appearance of the men cannot possibly be given no two persons agreeing as to looks and dress From all the testimony it can be safely stated that one of the men was tall and spare built the second was low thick and very heavy and the third was scarcely more than a boy in stature

WRONG PARTIES ARRESTED

Yesterday afternoon James Turk and another party arrived here from a scouting trip west of the city having in charge two individuals supposed by them to have been implicated in the tragedy They were followed down Second street by a crowd numbering hundreds each intent on seeing and hearing all there was going on A crowd of several hundred gathered around the city jail when the door was closed and the young men allowed to explain They had been overtaken on the Barnes road about three miles from the city and one of them having about $1 0 in his pocket he was considered a suspicious character and placed under arrest ... them had no difficulty in establishing ... MORE ABOUT JACKSON GRANT.

Mr George A Dyson of Brownsville Linn county sends the following in relation to the Indian Jackson Grant who is now under arrest on a charge of murder He says

"I send you a few words about an Indian known as Jackson Grant I observe by yesterday s OREGONIAN that he has been arrested for horse stealing murder etc It was said here that he had served one term in state prison This that I send you may not prove [illegible] but it shows that he is really a bad case and something ought to be done with him

Mention has been made of the stealing of two horses by an Indian ... which were taken from him by Mr James Keeney of this county since then the horses have been identified as belonging to James Morgan There was left on the premises an old saddle a new ... cloth valise and two ... sacks the last named were full of cooking utensils and provisions

Also a lot of shoemakers tools such as a fine last for a lady s shoe shoe knives thread awls punches pegs & several ladies skirts and a pair of fluting tongs ladies back hair etc The valise contained a large collection of articles too numerous to mention There was a fine laguerre type of an actress fancily dressed for the stage a drawing or painting of a lady s portrait partly finished with several large pictures that are copies and several brushes and pencils for drawing and coloring also a letter written in a lady s hand recommending the bearer to understand horse work and signed N M Thornton a First reader partly torn with the name of Mary Olive Cooper written on the inside ... one fine blue cloth bound note book entitled Hallowed songs with the name of W Wadhams written on the inside cover and H A Barr Portland April 14 1877 on the fly leaf another note book called the "Armor Bearer" from the rooms of the Y M C A Portland

There was also a collection of thread needles buttons small looking glass white handkerchiefs neckties cuffs and collars and other articles of ladies wear also several fine white shirts of the latest style with bosom studs cuff buttons collars etc. There was a large Morocco pocket book, containing a comb and a number of letters and one "National Christian Temperance Union" pledge signed in pencil G Grant

There are four letters in all and it would seem as though the owner s name was G Grant, or Jackson Grant There seems to be something very mysterious about this affair, that only time alone can unravel

TO THE PUBLIC.

It unwillingly becomes my duty to inform the public that a certain would be high toned competing firm are now through jealousy resorting to falsehood and villification in order to gain patronage etc My reputation for fair dealing with customers has never yet been questioned by my patrons and it has remained for those villifiers to attempt by misrepresentation to injure a legitimate and honorably conducted business I have always sold goods cheaper than they could be purchased elsewhere and I am now determined to make further reductions. A PLAIN ISSUE.

A Card to the Public

From October 27 1876—fourteen days before the close of the centennial exhibition—when all the machinery for investigation was at hand to this day Weber has published the following figures o the judges on pianos—given to him then and there

ORIGINAL FIGURES

	WEBER. Bristow	Kupka	Oliver	Schiedmayer
Tone	6	6	6	6
Equality	6	6	6	5
Quality	6	6	6	6
Touch	6	6	6	6
	24	24	24	23—95

Total—95. Out of a possible 96.

Now Messrs Steinway publish fourteen months after the close of the Centennial a different set of figures on grand Piano etc They admit publicly that while *all* the rest of the piano manufacturers have quietly attended to their business, they have traveled thousands of miles made two ocean voyages and carried on an immense correspondence covering thirteen months persuading confusing manipulating the judges with a slightly different result.

If Messrs Steinway or their agent here will prove that the above are not the correct *original* figures as handed in by the judges before the close of the Exhibition we will give to the poor of Portland our check for $500 Also if Messrs Steinway or their agents at Salem Albany The Dalles or Walla Walla, will prove that their original figures were not 91 out of a possible 96 which is four less than Weber received we will give to the poor of each of the above cities our check for $50

The fact of the matter is, the Weber piano has become by far, too popular to suit the interest of that competing firm and they now perceive that their former prestige is fading fast before the growing popularity of Mr Weber, and every possible means is being resorted to in order to crush him

Finally we would add that while it is unsafe to trust an unscrupulous concern like that of Messrs Steinway whose questionable practices and manipulations at exhibitions have become notorious and whom we believe are capable of doing any thing except sticking to the truth yet we still have so much faith in the power of truth that we are loth to believe that even they would perjure themselves and dare to come forward and swear that Weber s figures, 95 as published throughout the world BEFORE the close of the exhibition are wrong

Does any sane man or woman believe it possible that Messrs Steinway would wait thirteen months after the close of the Centennial to correct Weber's statement of figures when it could have been done while the commission itself was in Philadelphia in session in thirteen hours, or surely in thirteen days? NEVER.

Weber's Award signed by all the Judges reads as follows

For sympathetic pure and rich tone combined with greatest power as shown in three styles, Grand Square and Upright Pianos which show intelligence and solidity in construction a pliant and easy touch which at the same time answers promptly to its requirements together with excellence of workmanship

The above Diploma signed by every member of the Commission and Judges on Pianos, can be seen at Weber s warerooms corner Fifth Avenue and 16th street New York at any time

Notwithstanding the desperate effort which is being made to injure the reputation of the only rival they are afraid of the Weber Piano will still continue to be the favorite with the public in the concert room and the parlor

JOHNSON'S NEW UNIVERSAL CYCLOPÆDIA.

From the Faculty of Yale College, and Other Distinguished Gentlemen of New Haven, Conn

This Cyclopædia presents the following important features

It is convenient for ready reference its most important articles are original productions prepared for this work by men who are well known to be distinguished in the several departments of learning, which they represent each article being signed by the writer it embraces a wide range of subjects about 0 000 in each volume—and is especially adapted to the needs of American readers An examination of the first volume must convince any one that as a table-book for the homes of the people and for the use of professional men merchants and manufacturers it will prove to be a work of great usefulness

It is practically a geographical gazetteer a biographical dictionary a medical and legal manual and a scientific repertory The treatment of the subjects is thorough and comprehensive and at the same time simple and judiciously adapted to the requirements of general readers.

A fortunate combination of circumstances has under the energetic and persevering efforts of the chief editors contributed to the securing of the co operation of a large number of eminent writers whose names will be recognized as among the first in the country in their respective branches of learning.

The work contains a vast amount of useful knowledge presented in a popular and convenient form and at a moderate price

From Hon John Norton Pomeroy, LL.D., Rochester, N Y.

A J JOHNSON Esq MY DEAR SIR—I have examined with some care the first volume of JOHNSON S UNIVERSAL CYCLOPÆDIA In its general plan and arrangement in the execution of that plan in the various special essays upon important and leading topics, in the imposing list of contributors whom you have secured to prepare these special articles, and in the manner in which the printing itself is done it is not surpassed and in my opinion not equalled by any *similar* publication American or English There are features of it which make it more valuable to the American student or reader than even the larger and costlier English works which are so universally known I refer to the careful and exhaustive discussion and treatment of so many subjects purely American—discussions which give the result of the latest and most accurate thought and investigation Your Cyclopædia tells many things which will be of the highest interest to European scholars public men and intelligent readers in general, and which they cannot find elsewhere and it will doubtless be the means of furnishing, for the first time and in a compendious form, a correct account of many of our internal affairs and modes of thought and life to the educated mind of Europe For the American author, student, editor, and other persons in similar employments, it will be simply invaluable from its compactness, accuracy and fullness In regard to certain classes of topics embraced within this volume I am able to testify of the accuracy and completeness of the treatment given in the special articles, and have a right to assume that the same qualities exist in all the other portions of the work It is a book which ought to be in the possession of every family which desires to have a means of ready access to information upon almost all subjects

TO THE PUBLIC.

There is nothing so well calculated to put the average reader out of humor as to commence an interesting article upon some late scientific discovery Indian war news etc etc, full of interest, and just as the happy peruser s mind is thoroughly infatuated with the subject, striving with great effort to grasp it in all its bearings away goes the author loud in his praise of some hair renewer balsam or other just as the OREGON BLOOD PURIFIER LIVER and KIDNEY REGULATOR cannot be truthfully called a patent medicine (although we have our copyright to prevent a spurious article being placed before the public) as the following account of its origin will show

For many years past hundreds of the best citizens of the city when troubled with dyspepsia, loss of appetite, irregularities of the liver and kidneys, have called upon Mr PFUNDER at his Pharmaceutical Palace corner Ash and First streets and requested a compound that would build their system up In each and every case there was this comparatively unknown remedy given and its results were of such satisfactory nature, and so highly recommended by those who used it, that the purely vegetable compound made from Oregon herbs and roots created a large demand for itself and upon its own merits It was then known as *Pfunder's Regulator* Desiring to benefit the community at large Mr Pfunder conceived the idea of placing this great Regulator before the people and what has been the result? The sale of the *Oregon Blood Purifier* has already been greater than that of any medicine manufactured on the Pacific Coast.

You will therefore observe that this is no *nostrum* put up to sell It has been weighed fairly in the balance and *not* found wanting

We deeply sympathise with the public in being so often imposed upon in purchasing many tonics so called which by the large proportion of spirituous liquors used in their preparation are most injurious to the delicately formed tissues of the human stomach

The Celebrated *Oregon Blood Purifier* contains no alcoholic stimulant In plain language refuse whisky! as many late *yields* over Oregon Herbs whose extract has been found to be an excellent and superior tonic and no serious results can follow the use of the Regulator

To ... prevents nausea and vomiting regulating the bowels and keeping the system in perfect health Many Portland ladies can testify to this.

To those suffering from *Scrofulous* disease it is a positive purifier of the blood eradicating all this case

We ask you to try a bottle of this really excellent preparation. It is made in Oregon from Oregon Roots and Herbs and we will warrant beneficial results from its use

Locally the money market is devoid of any new phase of material importance. Notwithstanding the somewhat increased demand for money induced by the greater volume of the crop movement, the supply of funds available is reported as ample to meet all inquiries from legitimate sources.

Wheat and Wool.

The receipts of wheat, as will be seen, are gradually increasing, though reports from the interior inform us that the bulk of the harvest is now at hand. Our best advices indicate quite as full a yield as has been expected for a month past, though not up to exaggerated estimates made early in the season. From the news by telegraph it would appear that the markets abroad are unchanged, though New York is quoted weaker. San Francisco is steady with an active demand for choice lots of Oregon at maximum quotations. Our San Francisco exchanges are claiming that the wheat markets of this coast have, since the harvest year began, been 10 cents per cental in advance of the Liverpool quotations, but it seems hardly probable that buyers, who are well posted, would be so numerous, if such were the case, especially as there is no good reason to expect any important advance for a good while. Our home market is fairly active at former quotations.

The bulk of the wool clip has been moved, though receipts continue in moderate volume and prices are steadily sustained.

New System of Wagon Brakes.
TRULLINGER PATENT BRAKE.
NO SHOES TO WEAR OUT TIRES!
No Brake Bar used. Will hold a Wagon anywhere from Backing or going Forward.
THIS NEW BRAKE NOW BEING INTRODUCED by the inventor, J. C. Trullinger, is a combination of friction gear applied to the hub of a wagon. It is simple and light, yet has more strength and durability than any other wagon brake now in use. It is so attached to the wagon that it is out of the way of the gearing, yet always reliable and at hand when required. Any teamster or mechanic can see at once its utility and effective force to hold a load on a down grade, or to prevent horse backing when required. The Brake is made entirely of iron, no wooden part being necessary, as no brake bar is used; hence it does not carry mud and is not affected by wet and muddy or icy roads.
We invite critical examination, as we believe its merits can be demonstrated to any party who uses or understands a wagon brake.

Agents Oregon and Washington.
For Shop Rights apply to J. C. TRULLINGER, Astoria. Parties wanting Brakes put on their wagons can also apply to L. M. DYER, blacksmith.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

Office, 63 First street, over McCormick's Franklin Bookstore.

BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate, possesses that basis and starting point of real beauty—a pure and clear complexion. What nature has thus denied, art must be called upon to furnish. It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner. It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power. It drives away all evidence of fatigue and excitement. It makes the plainest face beautiful. It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund and plump. It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and, while it is as harmless as water, it is so life-like in its effect that the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

The Attempt to Extradite Kempton.

BOSTON, Aug. 20.—The attorney general of Massachusetts gave the first hearing to-day in the case of Hiram H. Kempton, for whom a requisition has been issued by the authorities of South Carolina. Judge Abbott and Mr. Tunstall for South Carolina submitted certain papers bearing upon the construction of law under which the proceedings are to be heard, and thereon rested their case. Counsel for Kempton held that his presence in South Carolina was required not to punish him but to put him in such a position as to compel him to aid South Carolina to rid herself of her obligations by repudiating some of her state debts. An agreement was made with Kempton that he should be exempt from arrest for 15 days, if he should go to South Carolina and give information. This agreement was drawn up and signed in the St. Nicholas Hotel, New York. Gen. Youmans objected to the reading of the argument, but the attorney general admitted the papers. Dickinson then called attention to the case of Senator Patterson, who was arrested in Washington on the very same indictment and the attempt to take him back to South Carolina. Kempton himself took the stand and after relating the story of his conversation and correspondence with South Carolina officers regarding the matter of securing immunity he said, in answer to a question of counsel for South Carolina, that his only reason for not wishing to go to South Carolina was on account of civil suits which might be brought against him.

A Hint to the Nationals.

[From the New York World (Dem.)]

The Nationals of Dauphin county, Pennsylvania, not only want the currency inflated but the volume of shad in the Susquehanna increased. By all means. Let the government issue a thousand millions of pieces of pasteboard, each inscribed

THIS IS A SHAD

If necessary, they might be made interconvertible with paper at the will of the catcher.
